YOUR
CONSTRUCTION
NEEDS.

OUR
PASSION.

LEBOLO manages each of these projects utilizing a cohesive project management system comprised of SmartBid® for subcontractor management and bid solicitation, ProCore® for reporting and project management and Foundation® for all accounting and cost control needs. The use of this project management suite enables LEBOLO to provide accuracy in estimating, budgeting, pre-qualification, scheduling, cost control, safety and quality management. At LEBOLO, our motto is complete transparency and a “whatever it takes” attitude. Safety, Integrity, and Accountability are our Core Values, and we don’t just say them, we live by them!

WHY LEBOLO?

- Collaboration Produces Effective Results
- Transparency Offers Clear View
- Safety is Job One
- Recognized Construction Industry Leader
- Build it Right

CORE VALUES

SAFETY

Our success in keeping people safe can be attributed to extensive training, disciplined processes and follow-through. A safe construction environment reduces injuries and losses in production, saves money, and gives clients peace of mind knowing that their project is in good hands.

INTEGRITY

We are looking for clients, not projects. Being honest and fair is the best way we know to build trust. Our client relationships are based on mutual respect, good communication and earnest feedback. We maintain ninety percent of our clients by serving their ongoing construction needs.

ACCOUNTABILITY

No excuses. We take responsibility for the process and services rendered. Clients appreciate our "Open Book" approach and straightforward assessment of costs, quality, and timelines. Our time and effort is well managed and documented. We become an extension of the in-house construction team, consistently delivering projects on-time and on-budget.
